

New and Changed Cooperative Wildlife Management Unit (CWMU)  
Recommendations 2010

- Program Coordinator: Boyde Blackwell, (801)538-4776 or [boydeblackwell@utah.gov](mailto:boydeblackwell@utah.gov)

- The CWMU program is governed by R657-37 all Division recommendations are based in this rule
- A CWMU must submit a new application/management plan for approval if
  - They did not have a COR the previous year
  - Expiration of an application/management plan
  - Change in boundary from the previous year
- A CWMU must submit a change to a three year application/management plan if
  - Change permit numbers or allocation
  - Season dates
  - Operator or
  - Any other matter related to the management and operation of a CWMU
- The Division is recommending approval of 13 new application/management plans
  - Seven brand new
  - Four boundary changes
  - One CWMU split into two separate CWMU's
- The Division is recommending approval for 7 out of 8 change application/management plans
  - One split recommendation the Alton CWMU is requesting management buck permits
    - CWMU's already have the ability to use their private permits for management deer hunts if they choose
    - The Division at this time is not prepared to extend the new program to CWMU's
    - The CWMU volunteered to take a 10% unit cut (2 permits) as did the overall public permits but is now asking for an over all increase (5) in buck permits for the CWMU

Due to the lack of complete fences the North boundary follows the existing public access trail through both private and public lands. The trail acts as the north boundary. Those hunting on the CWMU will hunt up to one side of the trail, all other sportsmen will hunt up to the other side of the trail.

**CWMU requested 5 (4/1) management buck deer permits the Division is recommending against this request because**

- The CWMU was in favor of a permit reduction not an overall increase
- The long 61 day season increases concern for check-in and additional work-load
- New program DWR would like to work the problems out before we give tags to CWMU for a new program
- CWMU already has the ability to sell permits as management permits

**What would need to take place if request is approved**

- New Drawing for CWMU premium management bucks would need to be developed
- All vouchers must say Management Bucks
- Both private and public hunters must be subject to mandatory check-in
- If we get up to a large number of permits for the unit the CWMU will need to take their % of management bucks
